

Same Great Care...New Location, New Services

The New UConn Health Center Medical Offices on 1115 West Street

At the new UConn Health Center medical office building, experts with the New England Musculoskeletal Institute provide a range of services including orthopaedic care for sports injuries, joint pain, back pain, problems affecting feet, ankles, wrists and more. In addition, specialists with the UConn Medical Group are introducing new services in areas including ear, nose and throat (ENT) care, surgery, urology, dermatology, breast health, vascular surgery and OB-GYN.

We are here for your needs, Southington!
